PRESS RELEASE:

Aging & Long Term Care of Eastern Washington announces new website launch!

Aging & Long Term Care, the local Area Agency on Aging for the Spokane region, is excited to announce the launch of its newly redesigned website at www.altcew.org. The new website features improved functionality, a clean modern design, and easy to access information on how older adults and adults living with disabilities can receive assistance to live at home for as long as possible.

The new client focused website makes accessibility a priority and is mobile friendly. The purpose of the new website is to better provide resources and information to visitors. Because of this, we will continuously work to improve our website, and provide relevant information about aging services.

“We are excited to share our new website! This website will make it easier to learn about services and supports available for people who want to stay at home as they age. It has great information about upcoming workshops, volunteer opportunities, and much more.” – ALTCEW Executive Director.

Please check out our home page for important information, our news page for updates, and our events calendar for upcoming classes and webinars. We will keep you up to date on items such as local education series, Medicare support, and available programs. If you have any questions or issues in regards to our website or accessibility, please email action@altcew.org.

About Aging & Long Term Care:

Aging & Long Term Care is a regional Area Agency on Aging that provides programs and services that help older adults and people living with disabilities stay at home as they age. About 650 Area Agencies on Aging exist nationwide. Their mandate is to assist seniors in finding the services they need to remain independent and safe in their homes for as long as possible. Aging & Long Term Care of Eastern Washington oversees the third largest planning and service area in the State of Washington, totaling approximately 8,900 square miles. Aging & Long Term Care provides services such as case management for people who need a caregiver, information and assistance, options counseling, and answers questions about Medicare and Medicaid. The agency cannot fulfill its mission alone so it works with local partners in the community to provide services such as meals on wheels, family caregiver support, and transportation.
